

Part IV

Framework, Architecture, Software, and Hardware Systems

Chapter 18: Design Guidelines for Wireless Sensor Network Architectures in mHealth Mobile Patient Monitoring Scenarios

Chapter 19: Evaluation of Health Care System Model Based on Collaborative Algorithms

Chapter 20: Software Architecture for Emergency Remote Pre-hospital Assistance Systems

Chapter 21: mHealth Portable Systems and Platforms

Chapter 22: A Product Line Architecture for Mobile Patient Monitoring System

Chapter 23: The Design of Integrated Circuit for Biomedical and mHealth Application
